Deadline for manuscript  
submissions:

**25 April 2023**

### Message from the Guest Editor

Dear Colleagues,

Nutrient-nutrient interaction is common. However, the mechanisms are not fully clear. Over the past several decades, a great focus had been put on the impact of one nutrient on other nutrients' bioavailability via absorption and utilization. The interaction may also happen when nutrients have opposite physiological effects, for example, pro-inflammation and anti-inflammation. A growing number of studies suggest that gut microbiota play an important role in the aetiology of many diseases. Different effects of nutrients on gut microbiota may be potential mechanisms of nutrient-nutrient interaction. A better understanding of the mechanisms of nutrient-nutrient interaction may provide valuable information for the prevention of many non-communicable chronic diseases.

In this special issue, we welcome the submission of original research articles and reviews (systematic reviews, critical reviews and meta-analyses).

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

Professor of Preventive Medicine & Public Health, Director of the Research Institute of Biomedical and Health Sciences, University of Las Palmas de Gran Canaria, Spain

### **Prof. Dr. Maria Luz Fernandez**

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Food Science*)
